Medical Storage Room MSR

Golden Hour Medical Storage Room is self-sustaining, fully functional in 20 minutes, field hospital warehouse unit, which is capable of preserving up to 10m³ of drugs, blood or any other medical substance.

Unit will ensure -50 to +25 storage conditions with outside temperature from -40 up to +50 degrees centigrade. Unit can preserve these storage conditions up to 24h without external power source (electric or diesel). Storage conditions are remotely observable via computer. Unit has built in levelling legs, which makes loading and unloading a unit from a truck or barrow possible without extra cranes or lifting units.

Unit workflow and parameters are designed in accordance to GDP and Directive 2001/83/EC article 84 relating to medicinal products for human use. Unit is also manufactured in accordance to ISO 668 and ISO 1161, which makes them transportable via air, sea and land with standard container regulations. The manufacturing process and workflow is certified accordance to ISO 9001, ISO 3834-2, EN 1090-1 and AQAP 2110.

Unit has built in levelling legs, which makes loading and unloading a unit from a truck or barrow possible without extra cranes or lifting units.

CAN BE USED INDEPENDENTLY OR AS A PART OF MOBILE MODULAR HOSPITAL MMH
